

# Nelson's Ag Roundup

- Podcast Update- Upcoming Events - Holidays On The Farm- Spring Registration -

## Agriculture Engineering and Technology

Have you ever thought about the GPS in your phone or your car? What about the satellite imaging of google? These same technologies are used on a regular basis now in agriculture to measure plant mass, water absorption, drive equipment, and even measure acreage. How would you use GPS/ Satellite Imagery on your farm?

Academy Team!*

## Agriculture Book of the Month:

This month's book is one of my favorite go-to books for backyard livestock and gardening. "40 projects for building your Backyard Homestead" can be found at <https://www.amazon.com/Projects-Building-Backyard-Homestead-Hands/dp/1580117104>. Or check at your local library for this and many more homesteading books.
